

Happy Easter to all.

Today as we celebrate the feast of the Lord's Resurrection, we went to distribute the Holy communion to the elderly in the communities around the Parish. It was a beautiful experience because some of the elderly had been for long time longing to receive the body of Christ. For some were expressing their desire to be better and will try not to make sin anymore in the future.

This experience like what Don Orione said that "When the people appear to be separated from God forever, it will then awaken like a strong man and realise that only Christ is its life and happiness, and with a loud and anxious voice will call on the Lord, the God of mercy".

I was strike to see them in their longing to received Jesus. They believe truly that God is they way, truth and the life. Some were receiving the communion with tears in their eyes. It makes me to reflect and believe the work of God that is not always for everyone to be able to discovered God who is coming to them. And by looking at their desire to be better makes me to be grateful that I am able to receive Jesus daily in my life and being encouraged to be faithful to be true instrument of the mercy of God to all the people. For that I pray that I may always remember what Don Orione said: "the best charity that we can give to God is a soul, and best charity that we give to a soul is God".

May the blessing of Easter be with us always!
